INSURANCE INFORMATION (*PLEASE PRINT CLEARLY*)

Name of Vision Insurance	Name of Policy Holder	Social Security Number	Date of Birth

Name of Medical Insurance	Name of Policy Holder	Social Security Number	Date of Birth

SIGNATURE ON FILE

Your insurance is a method for you to receive reimbursement for fees you have paid to the optometrist for service rendered. Having insurance is not a substitute for payment. Many companies have fixed allowances or percentages based on your contract with them not with our office. It is your responsibility to pay in advance for the deductible, coinsurance, or any other balances not paid for by your insurance. We will assist you in receiving reimbursement as much as possible, but you are responsible in advance for your bill. By signing this statement you agree to be financially responsible for all charges.

Signature of Patient or Authorized Agent _____ Date _____

ACKNOWLEDGEMENT OF REVIEW OF NOTICE OF PRIVACY PRATICES

I have reviewed this office's Notice of Privacy Practices, which explains how my medical information will be used and disclosed. I understand that I am entitled to receive a copy of this document.

Signature of Patient or Authorized Agent _____ Date _____

AUTHORIZATION TO RELEASE MEDICAL INFORMATION

I authorize this office to release my health information to insurance company, consulting physician, optical center, and/or contact lens vendor. The purpose (s) for the release are to determine benefits or the benefits payable for related services or only at the request of the individual/patient . This assignment will remain in effect until revoked in writing. A photocopy of this assignment is considered to be as valid as the original.

Signature of Patient or Authorized Agent _____ Date _____

DILATED FUNDUS EXAM

Dilation is a procedure by which the doctor puts drops in your eyes to enlarge your pupils. We recommend that all our patients have their eyes dilated during the examination because the doctor is able to provide a more comprehensive eye evaluation and obtain a larger view of your retina to detect for eye diseases such as glaucoma, cataracts, tumors, and retinal detachments.

Dilation may temporarily blur your vision and make you more light sensitive (disposable sunglasses will be provided), but the benefits far out weigh the small annoyances. Therefore, we strongly recommend our patients have their eyes dilated whenever possible.

THE FEE FOR THIS PROCEDURE IS $19.00

Do you want your eyes dilated today? [] YES [] NO

DIGITAL RETINAL PHOTO EXAM

TransVision is committed to providing the best patient care possible. We are now offering high resolution Digital Retinal Photo Imaging to accurately document retinal findings. This test should be done every year since the eye's health can change at anytime, often without symptoms. Retinal photography is strongly recommended for patients with a history of diabetes, glaucoma, cataracts, high blood pressure, and high prescription. Depending on each patient's needs, the doctor may recommend both Digital Retinal Photo and dilation. The benefits of Digital Retinal Photo Exam compared to dilation are your vision is unaffected, it provides a permanent documentation of eye diseases and establishes baseline images to compare against future changes and both patient and doctor view images together, providing the best education and disease management.

THE FEE FOR THIS PROCEDURE IS $25.00

Do you want a Retinal Photo Exam today? [] YES [] NO

If you chose not to have the above test performed, TransVision and their doctors will not be held responsible for any disease or pathology that goes undetected due to the lack of diagnostic information that could have been obtained from the retinal photo or dilation.
